Meet CD Honey & Spreads

Being present on the market since 1989, we constantly expand our offer. We are an experienced producer of honey, spreads, and creams. Our products are available in many different packaging formats and recipes according to customers' requirements.

Supplying our products by all distribution channels: retail markets, B2B, and eventually HoReCa, has led us to extending our offer to icings, coatings, glazes, and pastes used in the confectionery industry.

poly-floral honey

Honey and Fruits - polyflora honey with the addition of natural fruits

Honey with fruit can be used as a topping for desserts like ice cream sundaes, pancakes, and fruit salads. It can also be used in the kitchen with meats, as a salad dressing, and goes great with drinks such as tea or lemonade. Polyflora honey strengthens the immune system. It is recommended for allergic diseases of the respiratory system. In terms of chemical composition, polyflora honey is very diverse.
